Identify the effects of air resistance, water resistance and friction that act between moving surfaces. Recognise that some mechanisms including levers, pulleys and gears allow a smaller force to have a greater effect.</p>	<p>describe how to recover a substance from solution. Use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating. Give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metal, wood and plastic. Demonstrate that dissolving, mixing and changes of state are reversible changes. Explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including changes associated with burning and the action of acid on bicarbonate of soda.</p>

### Key Information

Homework is issued every Thursday and expected to be completed/handed in by the following Tuesday.

Spelling words are posted on Purple Mash every Thursday for a spelling test the following Friday.

Please wear your PE kit to school every Thursday.

### Reading:

- They will need to bring in their reading record daily.
- 4-5 times a week, as a minimum, we would ask that pupils log the pages they have read (e.g. p71-78) and once a week write an extended comment about the following:

Vocabulary – Did you identify an unknown word? Did you use a dictionary to discover its meaning? *Write down the word and its meaning*

Prediction – Can you make a prediction about what will happen next, based on your understanding of events so far? *I predict...because...*

Questions – Did the text raise any questions for you? *Write down your questions.*

**Additional support and guidance you can provide at home:**

Essential Reads		Common Exception Words
<p>This is a list of essential reads each pupil should aim to read by the end of the academic year. A small number of copies of each text are available from the school. Across the year, pupils can gain access to these texts through the library and their classroom.</p>		<p>These are the common exception words for year 5/6. Pupils are expected to write these words correctly in order to reach the <b>expected standard</b> at the end of year 6.</p>

<b>Mental Arithmetic (Mathematics)</b>		

☑ I can count forwards or backwards in steps of powers of 10 for any given number.

$$10^1 = 10$$

$$10^2 = 10 \times 10 = 100$$

$$10^3 = 10 \times 10 \times 10 = 1000$$

$$10^4 = 10 \times 10 \times 10 \times 10 = 10,000$$

$$10^5 = 10 \times 10 \times 10 \times 10 \times 10 = 100,000$$

$$10^6 = 10 \times 10 \times 10 \times 10 \times 10 \times 10 = 1,000,000$$

zero.

☑ I can multiply and divide whole numbers and those involving decimals by 10, 100 and 1,000 (e.g.  $5.73 \times 100$  is 573 hundred times bigger,  $67.89 \times 10 = 678.9$  ten times bigger).

☑ I can continue to count in any multiples of 2, 3, 4, 5, 6, 7, 8, 9, 10, 25, and 50.

☑ I can round whole numbers up to 10,000,000 to a required degree of accuracy (e.g. round to the nearest 10, 100, 1,000, 10,000, 100,000, and 1,000,000).

☑ I can add and subtract mentally with increasingly large numbers.

☑ I can count forwards and backwards with positive and negative whole numbers, including through

**Once pupils are secure, they will move on to learn:**

- Count forwards and backwards in steps of powers of 10 for any given number to 1,000,000.
- Perform mental calculations, including with mixed operations (e.g. multiplication and division) and large numbers.
- Calculate decimal fraction equivalents for simple fractions (e.g.  $0.5 = 1/2$   $0.25 = 1/4$ ).

Essential Reads	Common Exception Words
This is a list of essential reads each pupil should aim to read by the end of the academic year. A small number of copies of each text are available from the school. Across the year, pupils can gain access to these texts through the library and their classroom.	Common exception words are words in which the English spelling code works in an unusual or uncommon way. They are not words for which phonics 'doesn't work', but they may be exceptions to spelling rules, or words which use a particular combination of letters to represent sound patterns in a rare or unique way. These are the common exception words for year 2. Pupils are expected to write these words correctly in order to reach the <b>expected standard</b> at the end of year 2.

<b>Mental Arithmetic (Mathematics)</b>		
<p>☑ I can count in steps of 2, 3 and 5 forwards and backwards</p> <p>☑ I can count in tens from any starting point forwards and backwards (e.g. 12, 22, 32, 42, 52 or 15, 25, 35, 45, 55)</p> <p>☑ I can identify ten more or less than any given number (e.g. 10 more than 52 is 62 or 10 less than 81 is 71)</p> <p>☑ I can use addition and subtraction facts to 20 and derive related facts up to 100 (e.g. <math>4 + 6 = 10</math> therefore <math>40 + 60 = 100</math>)</p> <p>☑ I can calculate mentally using multiplication and division facts for 2, 5 and 10 multiplication tables (e.g. <math>2 \times 5 = 10</math> or <math>6 \times 10 = 60</math>)</p>		

**Once pupils are secure, they will move on to learn:**

- 100 more or less than a number
- 3, 4 and 8 times tables
- Counting in intervals of 50 and 100
